Best Inpatient Care Products Manufacturer

OUR STORY

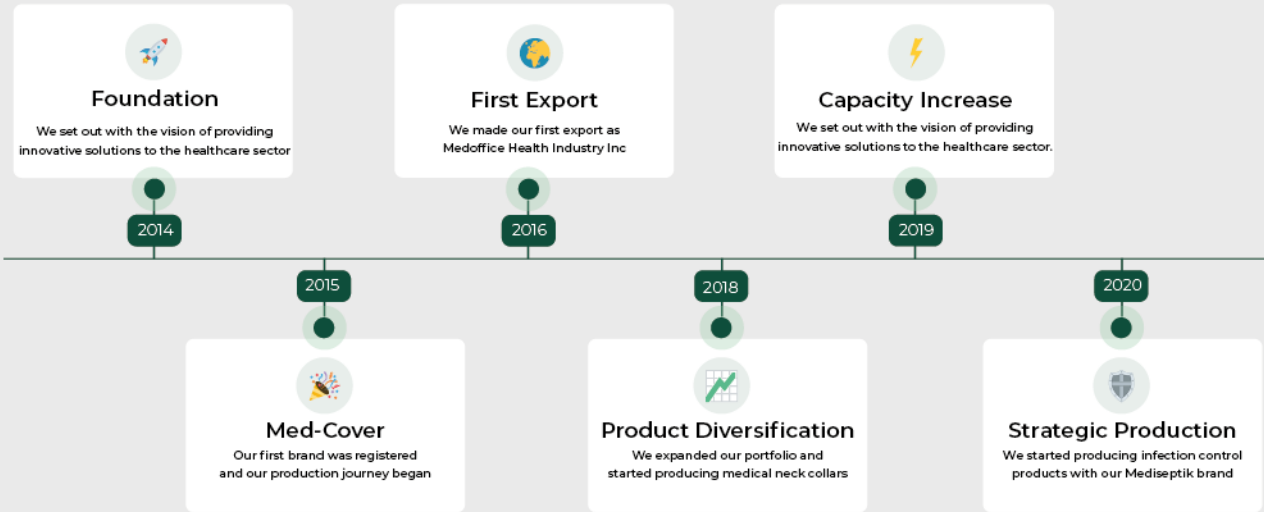

Medoffice's story began with our deep sense of responsibility towards human health. From the first day of our establishment, we embarked on a passionate journey to improve healthcare services and strengthen preventive patient care.

In our 4000 m² modern production facility, we carry out international standard production with our advanced technology automatic production lines, fully equipped microbiology laboratory, production processes regularly subjected to independent international audits, and our expert team.

Today, we are moving forward with confident steps towards our goal of becoming one of the leading brands in the sector with our exports to more than 90 countries, our wide dealer network serving healthcare institutions in every province of Turkey, and the prestigious awards we have received in the international arena.

GROWTH MILESTONES

OUR CORPORATE APPROACH

Our Vision:
To be a reliable and leading brand in the healthcare sector, with our innovative, scientific and sustainable solutions, primarily in inpatient care and throughout the healthcare industry.

Our Mission:
By developing reliable and high-quality patient care products in our technological production facilities; to provide health-protecting, healing, accessible and sustainable solutions.

- Our Values:**
- Human-Centeredness
 - Reliability
 - Stakeholder Unity
 - Innovation and Technology
 - Accessibility
 - Sustainability

- Our Policies:**
- Human Resources Policy
 - Environment and Sustainability Policy
 - Open Door Policy
 - Ethics and Behavior Policy
 - Social Responsibility Policy
 - Information Security Policy

WHY MEDOFFICE?

Deep Specialization

With strong R&D, proven product expertise, and years of industry experience, Medoffice develops specialized hygiene and skincare solutions in collaboration with clinicians — ensuring superior quality, comfort, and patient safety.

Ready-to-Scale

With agile infrastructure and flexible production, Medoffice rapidly scales for hospital tenders, bulk demand, and private label projects — ensuring speed without compromising quality.

Global Quality: (CE, FDA, ISO)

Certified by CE, FDA, and ISO, and dermatologically tested to EU standards — guaranteeing consistent quality, global trust, and reliable performance.

Sustainability / The Power of Water

Our rinse-free solutions conserve significant amounts of water with every use, supporting health-care efficiency and global water preservation. In addition, eco-friendly products and sustainable packaging further reduce environmental impact.

Your Benefits with Medoffice

High Profitability

Enjoy competitive margins with a proven product portfolio that generates sustainable revenue.

Fast & Reliable Delivery

Our scalable production and strong logistics network ensure on-time supply for hospital tenders and bulk orders.

Regulatory Compliance

All products meet international standards (CE, FDA, ISO, TGA etc.), reducing risks and ensuring smooth market entry.

Strong Brand Support

Benefit from Medoffice's global brand reputation, marketing materials, and after-sales service to strengthen your local presence.

All-in-One
Hair Cleaning
& Care

RINSE FREE SHAMPOO CAP WITH CONDITIONER

Med-Cover Shampoo Cap is designed for cleaning and hair care for the head area of inpatients, bedridden patients, and patients who require special care, such as intensive care patients. It removes dead cells from the hair with a special formulation while keeping the scalp healthy with Vitamin E and Provita-min B5. As in ordinary Shampoo Caps, it does not contain Latex, Lanolin, or Alcohol, so it is suitable for common use and allows for comfortable and safe care operations. Hair cleaning can be completed in a short time, such as 3 minutes, while effectively removing the remains like EEG gel, blood, and iodine from the scalp.

BODY CLEANSER FOAM

It can be used in bedridden patients, intensive care patients, patients with limited mobility or for daily body cleaning on an outpatient basis. With its rich content, it offers professional skin care as well as a cleansing effect. Its skin-friendly pH level makes it suitable for daily use. Unlike other cleansing products, it does not dry out the skin; on the contrary, it nourishes and smoothes it. It contains Oat Extract, which moisturizes and strengthens the skin barrier; Chamomile Extract, which adds shine and vitality to the skin; Aloe Vera Extract, which has an antioxidant, nourishing, and moisturizing effect; and Provitamin B5, which nourishes and moisturizes the skin. Thanks to the oat extract it contains, it moisturizes the skin and strengthens the skin barrier; thanks to chamomile extract, it gives shine and vitality to the skin; thanks to the Aloe Vera Extract, it has an antioxidant, nourishing, and moisturizing effect; thanks to Provitamin B5, it nourishes and moisturizes the skin.

WASH GLOVES WITH BARRIER CREAM

Med-Cover Wash Gloves with Barrier Cream provides comfortable and safe care opportunities for bedridden and intensive care patients. Thanks to a special formulation containing 3% Dimethicone, the gloves clean the skin, soften it and create a barrier layer. The content of Vitamin E and Provitamin B5 nourishes the skin and specially formulated Phospholipids helps to recover the damaged cells, which lose water. The product is made from soft tissue with three-dimensional special fabric that prevents skin from irritation and easy to use with the structure of the glove form. With a pleasant smell, the wash gloves make the patient feel better after cleaning. In addition, they help prevent incontinence-related skin irritation and reduce the risk of pressure ulcer formation.

BARRIER CREAM CLOTHS

Med-Cover Barrier Cream Cloths create a barrier layer on the skin with its special formulation while also meeting the daily cleaning needs. Clinical trials prove that moist skin protects the integrity of the skin better. Because there is a capability of elasticity. Regular products eliminate elasticity capabilities, which cause the drying of the skin, creating cracks then lead to disintegration. Med-Cover Barrier Cream Cloths with 3% Dimethicone in content help protecting the skin from external factors by creating a barrier layer. Aloe Vera, Vitamin E, Chamomile Extract and Pro Vitamin B5 allows the skin to be healthier. With Phospholipids in the content, it also helps in the recovery of water lost from the skin.

In addition, they help prevent incontinence-related skin irritation and reduce the risk of pressure ulcer formation.

BARRIER FILM SPRAY

Med-Cover Barrier Film is 100% silicone-based. It forms a long-lasting transparent barrier layer which can dry in a maximum of 30–45 seconds. This transparent barrier layer is long-lasting, breathable, durable, and provides full protection against potential damage. It also helps protect the skin from damage or irritation caused by medical adhesives during dressing or tape removal. The plaster or ostomy adapter applied afterward does not interfere with the adhesion of wound care products. It is non-toxic and non-irritating.

Advanced protection for delicate and fragile skin areas

TRANSPARENT BARRIER CREAM-120GR

Med-Cover Transparent Barrier Cream offers a smooth, viscous, greaseless, and fragrance-free moisture barrier. It creates a mechanical skin interface and offers the skin a unique, long-lasting protection, such as against maceration. It also resists wash off and therefore does not need frequent reapplication. It can be used to protect the skin from major factors like:

- Wound exudates Urinary and faecal incontinence (chronic or acute)
- Digestive fluids
- Friction and shearing forces

EXTRA DURABLE BARRIER CREAM-100GR

Especially for patients who use diapers, this product is recommended after a diaper change. As a result of cleaning the perineal area with highly basic products such as soap and water, the acid layer in the region (protective barrier layer) can be deformed. The skin that deforms the acid layer dries out. Dry skin causes cracks and fissures, creating an ideal environment for the development of urinary infection ruins in the area. Med-Cover Perineal Wipe takes up the role of a degraded natural barrier layer with 3% Dimethicone in the content. This layer provides breathability and blocks the transmission of liquid. The product is specially designed for the perineal region and will not cause any damage around the area with its soft tissue texture. With the clearance in the area of stools and urine and with supporting elements, skin damage is seen to return to its natural structure. With special ingredients like Chamomile Extract and Vitamin E in addition to Phospholipids to moisturize dry skin, it offers comfortable cleaning and maintenance facilities for skin that has lost its elasticity.

FOOT CARE CREAM

Med-Cover Foot Care Cream is prepared for foot care and protection. It effectively protects and moisturizes dry, cracked heels and hard feet. With an effective combination of vegetable oils and vitamins, it softens the skin of the feet and helps prevent cracks. Dry feet, known as Xerosis in patients with Type 1 and Type 2 diabetes, lead to autonomic neuropathy, impaired sweat production, peripheral erythema, edema, atrophy, and even aggravation of dry skin in the future. Dry skin, if left untreated, may develop fissures with a risk of ulceration. Also, when the foot is subjected to increased pressure and friction, the risk of developing a foot ulcer increases. Ulcers must be avoided because they not only cause significant discomfort and problems for the patient, but they can also result in amputation as the most serious consequence. When calluses and fissures increase, ulceration occurs. Regular use of a moisturizing cream formulated according to the needs of the diabetic foot can prevent this situation. For this reason, Med-Cover Foot Care Cream is an important supportive product for diabetic foot care.

HEEL PROTECTIVE FOAM PATCH

Med-Cover Heel Protective Foam Patch adapts to the anatomical shape of the heel, distributing pressure evenly and reducing the risk of pressure sores. Its breathable foam material prevents sweating and moisture build-up, helping to protect skin health. With its secure ankle fixation, it minimizes the risk of slipping and ensures safe use. Clinically approved, this product can be safely used for patients with limited mobility, bedridden individuals, or those in intensive care.

ADJUSTABLE FIRST AID CERVICAL COLLAR

MED-COVER Adjustable First Aid Cervical Collar is suitable for immobilization of the head and neck to prevent further injury to the casualty. It is highly necessary to avoid compression of the cervical rachis for a polytraumatized patient during moving or transportation. Due to a simple and precise method of measuring with fingers, the MED-COVER Adjustable First Aid Cervical Collar provides an ideal size selection. It has an X-ray compatible adjustable rip-apart closure. The one-piece design enables efficient storage in small spaces.

MED-COVER BABY

Glove
Form

New! Med-Cover Baby Diaper Rash Preventive Care Wipes

Specially developed for newborn and sensitive skin, its fragrance-free and gentle formula effectively cleanses while helping to maintain the skin's moisture balance, creating a reliable barrier against diaper rash. With 0% alcohol, fragrance, SLS, and SLES, it minimizes the risk of irritation and sensitivity. Dermatologically tested and approved by Dermatest GmbH (Germany), MED-COVER is a scientifically proven and trusted solution.

Clinical studies have shown that the product significantly prevents diaper rash without causing irritation or sensitivity. Expert evaluations and user feedback strongly support MED-COVER's claim of 99.9% effectiveness in diaper rash prevention.

SHAMPOO & CONDITIONER CAP

Med-Cover Shampoo & Conditioner Cap is intended for cleaning the hair, head area, and scalp of bedridden and intensive care patients.

With a maximum use of 3 minutes on the head, it ensures that maintenance and cleaning are completed in a short time. To use, first remove the cap from the pack, then place the cap on the head, making sure that all the hair is inside the cap, and begin massaging the hair from top to bottom for 3 minutes before removing the cap. No rinse is required after using Shampoo0 Cap. It can be heated through microwave for 30 seconds at 700 W. The product contains many beneficial ingredients such as Vitamin E, Provitamin B5, Dimethicone, Allantoin, Glyce-rin, Chamomile Extract, Aloe Vera...

RASH PREVENTER BABY WIPES

Med-Cover Rash Preventer Baby Wipes are designed for the sensitive bodies of babies, and it can be used safely in daily cleaning. It contains nourishing, moistu-rizing, and protecting agents and with this special formulation, you do not need to use rash preventing cream after a diaper change. Dimethicone has emollient, skin conditioning, and skin protecting properties. It forms a strong barrier on the skin, which can help reduce water loss across the skin surface, but it also helps protect the skin from external factors (body fluids).

Prevention. Hygiene. **Mediseptik.**

Infection Prevention Solutions for Body Hygiene

✓ **99.99% Antibacterial Effect**

The #1 Choice of Healthcare Professionals
3-Time Award Winner:
Best Inpatient Care Products Manufacturer

ANTI-BACTERIAL SHAMPOO CAP

Mediseptik Anti-Bacterial Shampoo Cap is specially designed to provide effective hair and scalp cleansing for bedridden or mobility-limited individuals, as well as patients in intensive care units. It is ready to use and requires no rinsing or drying, offering a practical and hygienic solution for daily care. With its antibacterial formulation, it helps reduce the risk of infection caused by environmental bacteria. Made from soft, skin-friendly fabric, it ensures a gentle and comfortable cleaning experience while maintaining scalp health. Enriched with Provitamin B5 and Vitamin E, it nourishes and revitalizes the hair and scalp. Thanks to its latex-free elastic design, it prevents irritation and ensures safe use. Hair and scalp cleansing can be completed in as little as 3 minutes, leaving a clean, refreshed feeling.

BIYOCIDAL

ANTI-BACTERIAL PERINEAL AREA CLEANSING WIPE

Mediseptik Perineal Area Cleaning Wipes are designed to be used in patients with incontinence problems and in patients who are using the adult diaper.

In such individuals, bacteria such as the e-coli bacteria in the urine and stool may cause serious skin damage as well as urinary tract infections.

With Chlorhexidine in the composition, it destroys 99.99% of such harmful bacteria without causing any damage to the mucous area and the skin.

With the honeycombed texture, it can easily clean the gaita in the area. Soft texture offer comfortable handling on sensitive skin. It helps to repair the dried and cracked area. It regulates the pH balance of the skin, helping to regain skin health. Patients using the adult diaper should use after each diaper change.
